

Connectors for DLP® Products

OVERVIEW

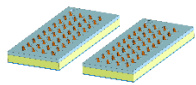

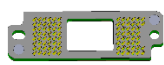

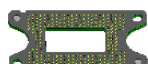

Neoconix PCBeam™ connectors for DLP® products are interconnect solutions for the Texas Instruments DLP® chips suitable for ultra-mobile and portable applications. One-piece, high density and cost effective solutions are enabled by patented Neoconix PCBeam™ technology, providing both a heat-sink opening and features for precise alignment of the Interposers to the DMD and main PC Board.

FEATURES

- Proven High Performance PCBeam™ contact design
- Connectors are fully compliant to the OEM's reference design drawings
- Both solderless LGA and solderable BGA solutions available
- Current capacity up to 1.5A per position
- Hard gold plated contact interface
- Compliant with ROHS 2011/65/EU and IPC-4101B (halogen-free)

NCX S312 Connector
